**Products of Combustion:**

Thermal Decomposition products are toxic and may include oxides of carbon and nitrogen, amines, possibly other irritating gases.

**Fire Fighting Media and Instructions:**

SMALL FIRE: Use DRY chemical powder.

LARGE FIRE: Use water spray, fog or foam. Do not use water jet.

**Protective Clothing (Fire):**

Splash goggles. Full suit. Boots. Gloves. A self-contained breathing apparatus should be used to avoid inhalation of the product.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

**For major spills call Chemtrec (800-424-9300)**

**See Safety Data Sheet section 8 Personal Protective Equipment**

**Small Spill and Leak** Absorb with an inert material and put the material in an appropriate waste disposal container.

**Large Spill and Leak** Corrosive liquid. Toxic liquid.

Stop leak if without risk. Absorb with DRY earth, sand or other non-combustible material. Do not get water inside container. Do not touch spilled material. Use water spray curtain to divert vapor drift. Use water spray to reduce vapors. Prevent entry into sewers, basements of confined area; dike if needed. Eliminate all ignition sources. Call for assistance on disposal. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system. Be careful that the product is not present at a concentration level above TLV. Check TLV on the SDS and with local authorities.

## SECTION 7: HANDLING AND STORAGE

**Handling** Do not ingest. Do not breathe vapor or mist. Keep container closed. Use only with adequate ventilation.

Wash thoroughly after handling. Avoid contact with eyes, skin and clothing.

**Storage** Keep container tightly closed. Keep container in a cool, well-ventilated area.

## SECTION 8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

**Preventive Measures** Conditions of use, adequacy of engineering or other control measures, and actual exposures will dictate the need for specific protective devices at your workplace.

**Engineering Controls** Use local exhaust ventilation to maintain airborne concentrations below the TLV. Suitable respiratory equipment should be used in case of insufficient ventilation or where operational procedures demand it. For guidance on engineering control measures refer to publications such as the ACGIH current edition of 'Industrial Ventilation, a manual of Recommended Practice.'

### Personal Protection

**Eyes** Chemical safety goggles. If there is a potential for splashing, use a full-face shield.

**Body and Hands** Full chemical suit. Gloves.

**Respiratory** Wear appropriate respirator when ventilation is inadequate.

### Personal Protection in case of a Large Spill
